

ONLINE CURRICULUM SERVICES

WHO WE PARTNER WITH

INTERNATIONAL SCHOOLS

International schools, whether private or public, seeking to expand their curriculum offerings through online coursework taught by American faculty. Courses are credit bearing and can be transferred onto the student's official transcript.

LANGUAGE CENTERS

ESL or English-language centers can easily incorporate and begin offering these courses to their students. This program will better prepare and provide qualified guidance to students interested in studying abroad or locally at an international school.

AGENTS/ ENTREPRENEURS

This highly adaptable implementation model paired with flexible enrollment option (including single, full-time, or dual-enrollment) allows for unique opportunities to opening micro-schools with the backing of an accredited diploma from the United States.

OVERVIEW OF DELIVERY

Single Course

Full-Time & Dual-Enrollment

	Single Course	Full-Time & Dual-Enrollment
